## DRIVE TRAINS

### Italian Precision, Mining-Grade Power

Euroricambi is the only viable alternative to original parts for Caterpillar and Volvo CE drive train applications, a market that has seen 30% annual growth for these specific lines. This impressive growth is a testament to Euroricambi's state-of-the-art workshops and high-quality production processes, ensuring the manufacture of superior final drives, differentials, and transmissions.

### WHY CHOOSE A EURORICAMBI® PRODUCT?

- + Same technological and qualitative specifications of OEM products
- + Higher performance steel
- + Precision profiles and geometries in every detail
- + Efficiency that lasts over time
- + 1830 quality controls carried out each month
- + ID code branding integrated hologram on the label to certify product authenticity

## UNDERCARRIAGE

### Certified Quality. Proven Performance.

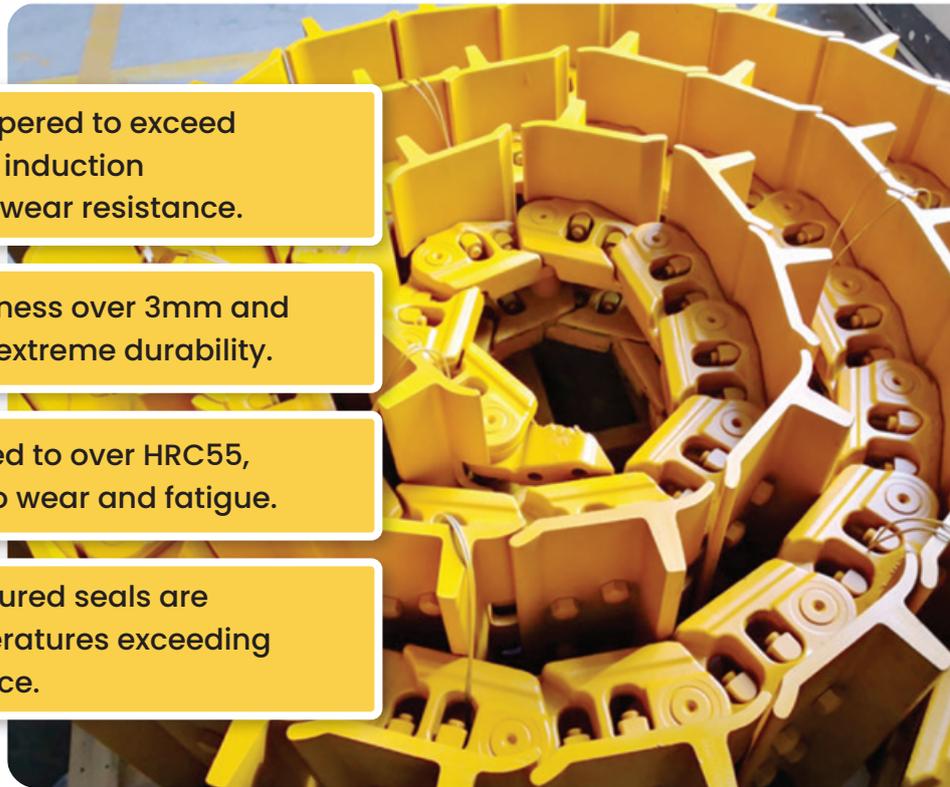

As Undercarriage Specialists, CapiParts provides top-tier solutions, including UKAS ISO9001 certified tracks and a comprehensive range of components like track chains, shoes, rollers, sprockets, idlers, and grouser bars. Engineered for the brutal mining environment, our undercarriage solutions ensure extreme durability, sustained performance, and significantly reduce downtime.

**Track Links:** Fully quenched and tempered to exceed OEM specifications, with rail surfaces induction hardened to over HRC50 for superior wear resistance.

**Bushings:** Feature a carburized thickness over 3mm and hardness exceeding HRC55, built for extreme durability.

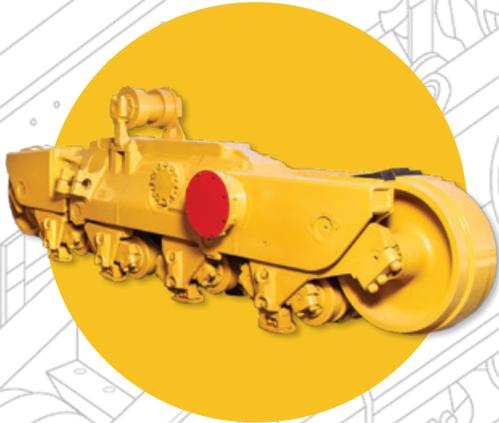

**Pins:** Are fully hardened and tempered to over HRC55, delivering best-in-class resistance to wear and fatigue.

**Seals:** Premium European-manufactured seals are engineered to endure working temperatures exceeding 200°C, ensuring leak-free performance.
