WHY SANZ
CRANKSHAFTS
ARE THE SMART CHOICE FOR MINING MACHINERY

Mining demands more from your engines — that's why SANZ delivers more. Every crankshaft is built to endure extreme loads, deliver consistent power, and keep your machines running longer with fewer failures.

BUILT TO LAST

Manufactured from **premium-grade steel**, SANZ Crankshafts are designed for durability and resistance to wear — even in the harshest mining conditions. Less downtime, more uptime.

PRECISION YOU CAN FEEL

Produced with **state-of-the-art machining**, every SANZ Crankshaft achieves perfect balance, ensuring smoother engine operation, lower vibration, and improved fuel efficiency.

TESTED BEYOND LIMITS

Every SANZ Crankshaft undergoes **rigorous stress and performance testing** before leaving the factory — ensuring it performs under pressure, shift after shift.

Sanz Crankshafts, 75 years manufacturing and exporting from Aragón, Spain to the world.

CapiParts — the trusted distributor of SANZ Crankshafts across Southern Africa.

A RANGE THAT FITS EVERY MACHINE

SANZ offers a comprehensive lineup of crankshafts for heavy-duty mining engines, trucks, loaders, and specialized equipment — all designed to meet OEM specifications.

Whether it's a rebuild, replacement, or performance upgrade, SANZ has the crankshaft solution to match your exact needs.

TRUSTED WORLDWIDE

With decades of manufacturing experience, SANZ has earned a reputation for quality and reliability across the global mining industry.

Now, through CapiParts, that same world-class performance is available across Southern Africa — backed by local expertise, service, and support.

READY TO MAXIMIZE YOUR FLEET'S PERFORMANCE?

CapiParts is ready to upgrade your fleet with SANZ Crankshafts — the benchmark for quality, durability, and precision.
