J600 HAMMERLESS SYSTEM

The CapiParts J600 Hammerless System streamlines GET maintenance by replacing high-impact pin driving with a safer, faster mechanical lock. This innovative design eliminates the need for hammers, drastically reducing changeout times and improving job site safety without sacrificing durability.

Adapter secured in vice for demo purposes.

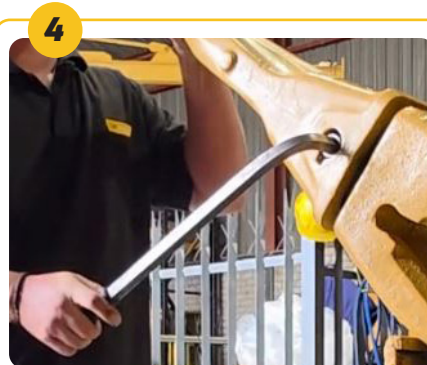

Insert the **retainer** until it is firmly seated in the adapter.

Slide the **tip** onto the adapter until fully seated.

Insert the **pin**. Quick and easy with our hammerless system.

With the **CapiParts Install tool**, the process of tightening the pin becomes faster, safer, and controlled.

ENGINEERED FOR THE INDUSTRY'S FASTEST, HAMMER-FREE GET CHANGEOUTS.
