KÜHNER Starter Motors & Alternators

Reliable Starting Power. Consistent Charging Performance.

In mining and earthmoving operations, reliable electrical performance is essential to keeping machinery productive and minimising unplanned downtime.

KÜHNER specialises in quality starter motors and alternators, offering an extensive range of starting and charging solutions manufactured in accordance with OEM specifications and supported by rigorous quality control.

As a KÜHNER distributor, CapiParts provides access to quality replacement starters and alternators for compatible heavy-duty machinery and engine applications, backed by our industry knowledge and commitment to efficient parts procurement.

STARTER MOTORS

Dependable Starting Power for Demanding Applications.

A reliable starter motor is essential for getting heavy machinery up and running. Whether starting equipment at the beginning of a shift or restarting after scheduled maintenance, dependable starting performance is critical to maintaining productivity.

KÜHNER starter motors are manufactured in accordance with OEM specifications and undergo rigorous quality controls to support reliable operation and durability.

Designed for compatible replacement applications, KÜHNER starters offer a dependable solution for maintaining the starting systems of mining, earthmoving and industrial equipment.

KEY FEATURES & BENEFITS

- Manufactured to OEM specifications
- Reliable starting performance
- Quality-controlled components and assembly
- Designed for durability and consistent operation
- Extensive replacement part coverage across multiple applications

ALTERNATORS

Reliable Charging. Consistent Performance.

Heavy machinery relies on a dependable electrical supply to maintain battery charge and support essential onboard systems.

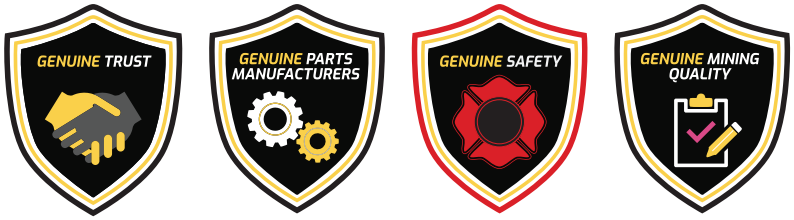

KÜHNER alternators are manufactured in accordance with OEM specifications, with quality-controlled production and assembly processes designed to deliver reliable and efficient charging performance.

With a comprehensive range of replacement alternators, KÜHNER provides charging solutions for compatible heavy-duty machinery and engine applications, helping maintain electrical system reliability and equipment productivity.

KEY FEATURES & BENEFITS

- Reliable and efficient charging performance
- Manufactured to OEM specifications
- Rigorous quality control and inspection
- Designed for durability and consistent operation
- Extensive replacement part coverage across multiple applications

WHY CHOOSE KÜHNER?

Quality Products. Specialist Support.

KÜHNER combines technical expertise, product development and rigorous quality controls to deliver dependable starting and charging solutions.

- **OEM QUALITY STANDARDS:** Products manufactured and assembled in accordance with OEM specifications.
- **QUALITY ASSURANCE:** Structured testing, inspection and quality control processes.
- **EXTENSIVE PRODUCT RANGE:** More than 18,000 references across KÜHNER's international product portfolio.
- **TECHNICAL EXPERTISE:** Supported by an established international distribution network and dedicated technical resources.

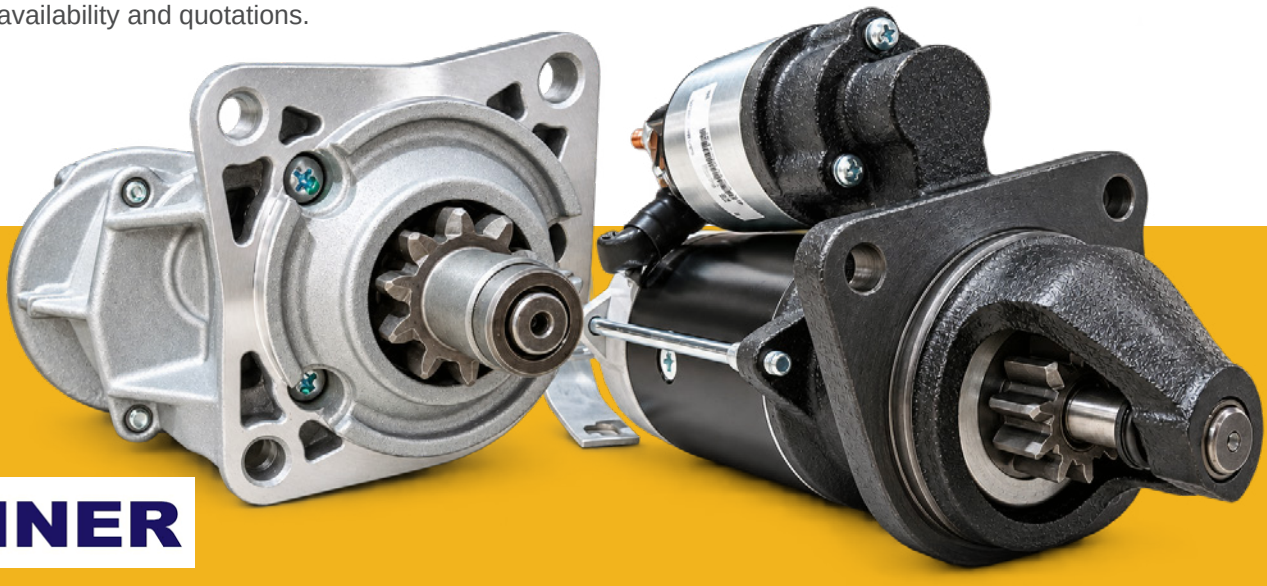

KÜHNER THROUGH CAPIPARTS

Quality You Can Depend On.

At CapiParts, we understand the demands placed on mining and earthmoving equipment and the importance of sourcing the right replacement components.

As a KÜHNER distributor, we combine access to quality starting and charging solutions with our knowledge of mining machinery and parts procurement.

Whether you're sourcing a replacement starter motor or alternator, our team can assist with product identification, availability and quotations.
